Dear Friends,

The children are eager for summer to start, of course they would rather not have the two hours of summer school four days a week. We

found having them in an education class keeps their learning skills in tune.

They can hardly wait until the first swim. Our summer will be filled with fun. Just think, 20 youth, 7 days a week and they wake up early. I started a summer recreation calendar with everything from cleaning vans to a trip to King's Island.

If you have any suggestions for day trips, if your company would like to come to the farm and have a picnic with the children, please call 829-5683 extension 104.

What was Mother's Day like at One Way Farm?

The children of all ages, especially the younger ones were anxious to go out for dinner. We went to Golden Corral.

They bring wildflowers from the yard, notes and cards. I remember each face. There were those who said nothing, and those who hugged and said, "Thank you Ms. Condo."

All of this can only happen because people care, we make a difference in their Mother's Day.

One of the girls had lots of stuff in her locker at school. We explained to school administration that Mother's Day is very hard for our youth. In her locker were cards she had made for Mother's Day.

One card was like a tea pot and on the back side was a tea bag. "Here, this is for Mother's Day", and handed me the card.

Then, the school, understood that Mother's Day is very difficult.
